

# Vaccinated Travel Lane and Recognition of Overseas Vaccinations for Vaccination-Differentiated Safe Management Measures (SMMs)

## Vaccinated Travel Lane

- A new **Vaccinated Travel Lane (VTL)** will be implemented to facilitate fully vaccinated persons to travel into Singapore under reduced border measures.

- We will start pilot VTL arrangements with **Brunei** and **Germany**.

- In lieu of SHN, vaccinated travellers under the VTL will undergo multiple COVID-19 PCR tests, including:

- A pre-departure PCR test within 48 hours of their scheduled departure.
- An on-arrival PCR test, and two additional PCR tests on Day 3 and 7 of their stay in Singapore.
- The number of VTL travellers will be limited by available flights, dedicated to the scheme.
- VTL travellers must travel on non-stop designated flights to Singapore.

- Vaccinated short-term visitors and long-term pass holders who wish to travel under the VTL will need to apply for a **Vaccinated Travel Pass (VTP)** between 7 and 30 days before their intended date of entry into Singapore.

- Applications for the VTP will start from **1 September 2021** for travel into Singapore from 8 September 2021.

- Returning Singapore Citizens and Permanent Residents who are vaccinated will automatically qualify and do not need to apply for the VTP in order to travel under the VTL.

## Recognition of Overseas Vaccinations for Vaccination-Differentiated Safe Management Measures (SMMs)

- From **20 August 2021, 2359 hours**, a tamper-proof vaccination sticker will be affixed onto the passport of newly arrived travellers<sup>1</sup> who are fully vaccinated overseas with a WHO-Emergency Use Listing (EUL) vaccine, and can furnish a valid English-language vaccination certificate.

- These travellers will be eligible for vaccination-differentiated SMMs (e.g. dining out in groups of 5) in Singapore if they produce their passport with the valid tamper-proof sticker affixed.

- To obtain this sticker, travellers should produce their English-language vaccination certificates to officers at the Singapore immigration checkpoints upon arrival.

- By **September 2021**, upon verification of their eligible vaccination status at entry, travellers will also be recognised by Safe Entry Biz App through their TraceTogether App/Token to be eligible for vaccination-differentiated SMMs without needing to go through pre-event testing.

<sup>1</sup> These include Singapore Citizens, Permanent Residents, Long-Term Pass Holders and Short-Term Visit Pass holders from all countries/regions (i.e. Category I, II, III, IV).
